Cassy Tully

FINE ART

Artist Statement

Each Cassy Tully original painting is meticulously created using her signature relief-painting technique. Based on her research of Italian relief artwork, Cassy blends traditional sculpting techniques with modern painting materials, increasing the surface texture and the illusion of perspective.

Her recent commissioned masterpieces and commemorative art is found at Yellowstone Country Club in Billings, MT. Her original art for The Cliffs at Mountain Park, SC, was commissioned as tee gifts for the club's annual Member-Guest Tournament. Cassy is pleased to partner with XXIO, presenting her artwork and personalizing prints at their Father-Son and Dealer Conferences, hosted at marquee courses including Whistling Straits, Kiawah Island Golf Club, and Pebble Beach Golf Links.

Cassy's artwork is available in Kohler, WI, at Whistling Straits, Blackwolf Run, The American Club, Riverbend, the Kohler Waters Spa, and John Michael Kohler Arts Center - ARTspace, host of Cassy's 15th anniversary art show in May, 2023. Her art is also showcased at Desert Mountain Club in Scottsdale, AZ, and The Union League of Philadelphia.

Cassy created art for the 43rd Ryder Cup and the 2015 PGA Championship, held at Whistling Straits, and the 2012 U.S. Women's Open, held at

Blackwolf Run. Her partnership with the Western Golf Association includes art for the 2018 - 2023 BMW Championships, benefiting the Evans Scholars Foundation.

The Milwaukee Brewers commissioned Cassy to create two original paintings celebrating their 50th Anniversary. Her baseball-inspired art also includes creating original art for Cooperstown All Star Village.

Her philanthropic paintings include artwork for the Veteran Golfers Association; an original painting signed by Arnold Palmer, benefitting the Arnold Palmer Foundation; and a painting signed by Pro Football Hall of Famers, which benefited the Beyond Sports Foundation.

Cassy's books, prints, ornaments, and stationery sets are available in her online shop. For more information about commissioned projects, please contact 262-424-7476.
